Host Organization: Hotel Baco

Tutor's name: Susana Reguera

1. Description of the host organization

Designed for travelers, the hotel is placed in the heart of the city, specifically in Plaza Ponce de León (Santa Catalina district). The Baco Hotel is the ideal starting point to know the main tourist attractions of Seville. Relaxation, well-being and rest are the main that team of the hotel always tries to provide to its customers. In the Baco Hotel, they perfectly combine the cultural heritage with the modernity of the services and facilities offered. For this reason, the hotel offers to its clients a finished list of facilities adapted to the needs of every traveler. From a 24-hour reception to a large terrace equipped with a finished kitchen, hammocks and everything necessary to enjoy the day in the complex.

2. Main responsibilities & tasks carried out during the work placement

- Checking if the rooms have been vacated before cleaning
- Making beds daily and changing bed linen, cleaning bathrooms, vacuum cleaning
- Checking and restocking tea, coffee, sugar, milk and mini bar supplies
- Making sure that televisions, radios, lights and air conditioning equipment are working
- Reporting to a supervisor when articles are left behind by guests, if there is any damage in the rooms or if any items appear to have been stolen

3. Tutor's final note

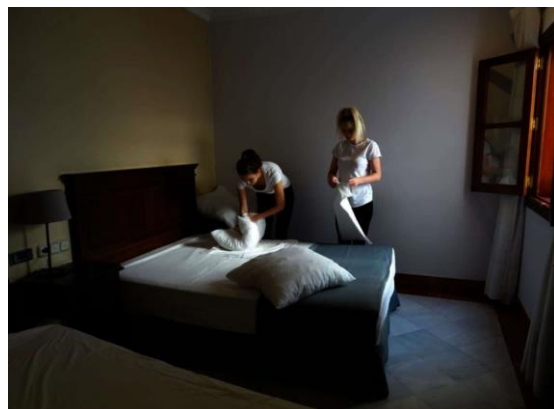

6 (Excellent)

4. Tutor's final evaluation

She is very pleasant and always willing to participate, helped a lot with the waitresses.

5. Participant's opinion about his/her personal & professional development

We worked together with four people who adopted us heartily. They taught us a hotel profession. Among our responsibilities were preparing rooms for guests, breakfast service, maintaining cleanliness in the whole building. These were typical tasks for our job. Although the season is over there were still many tourists from all over Europe and Asia. Atmosphere at work was really good.

Artur Niewiński

Host Organization: Achef Areas S.L.

Tutor's name: Esther Hidalgo Sanchez - Ricardo Jimenéz - Alfredo Barrios

1. Description of the host organization

Achef considers itself a different and special company formed by a large team of professionals specializing in different sectors. The company was founded more than 20 years ago and thanks to all these years working in the branding, graphic design, printing and labelling sectors, it can be considered one of the best professionals in the province of Seville. The main characteristic of Achef is the creativity. They mix ideas, the first step is to know the client's idea, then analyze the situation and their objectives and in this way, they can start the project. They create products appropriate to the client expectations respecting the deadlines.

2. Main responsibilities & tasks carried out during the work placement

- Printing all materials received by customers (by mail or on the flash drive)
- Binding documents and distributing printed materials
- Saving and archiving documentation
- Developing administrative tasks related to customer service and use of office equipment (make photocopies, scan, etc.)
- Supporting sale process and sending
- Preparing materials and equipment, laminating, vacuum-packing, using a guillotine paper cutter

3. Tutor's final note

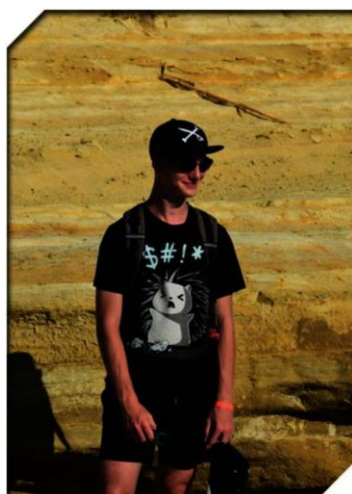

6 (Excellent)

4. Tutor's final evaluation

Serious about his work and very responsible. We are very happy!

5. Participant's opinion about his/her personal & professional development

We worked in Achef Areas, it is an advertising-marketing agency, which is in Dos Hermanas. Our job was very interesting because we were doing things that we have done in school, but in theory. Every day we did different things, for example we laminated folders, did the t-shirts overprints, packed the boxes that were sent, packed the final products in foil and much more. All of this tasks were closely related to our profession, but we were thinking that we would work with computers. Through this course we had an opportunity to participate in all the process of creating advertising products.

Alicja Szubert

Host Organization: Ritmo Hispano S.L.

Tutor's name: Juan Jose Laguna Alvarez

1. Description of the host organization

The two companies Sonika Sur and Ritmo Hispano were founded just over a year ago by Juan José Laguna Álvarez. From a simple idea, he created an excellent and practical project that has become a professional company. The office facilities boast a meeting room, working spaces and all the services that they could need such as a terrace, internet, printing machines etc. The company is dedicated to the sale of a product that has been dubbed 'Los Manolitos'. These are plastic covers that prevent high heels from sinking into soft surfaces and therefore prevent them from getting stuck in irregular surfaces such as grass, wood, rocks, cobbles etc.

2. Main responsibilities & tasks carried out during the work placement

- Providing customer service in a professional, courteous and friendly manner
- Creating and modifies documents using Microsoft Office
- Preparing, scanning and placing documents in electronic and paper filing systems
- Maintaining and managing inventory control of materials and suppliers

Host Organization: Auditorio Alvarez Quintero

Tutor's name: Macarena Mayo Gutiérrez / Angel

1. Description of the host organization

Music in Sevilla means flamenco. In the heart of Seville's old town, a few meters from the Cathedral and the Giralda tower, in Calle Alvarez Quintero 48, just a two-minute walk from the Forgiveness Door of the Cathedral which gives access to Patio de Los Naranjos (which was one of the gates to get the old mosque) we can find Auditorio Alvarez Quintero. The auditorium is located in a unique and typical Andalusian patio of an old house, that is the ideal place for the flamenco acoustic. The artists who perform are professionals, in addition to presenting their shows in the auditorium, they also perform in other international works. We are talking about leading flamenco figures such as the Tremendita or Roció Rosario Molina among others.

2. Main responsibilities & tasks carried out during the work placement

- Providing information about flamenco culture
- Providing information about the company
- Receiving and greeting clients at the reception
- Controlling payments and managing invoices

3. Tutor's final note

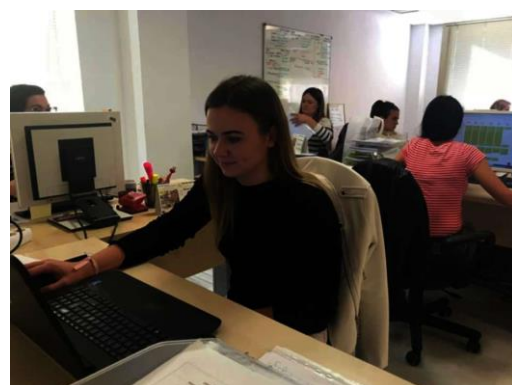

6 (Excellent)

4. Tutor's final evaluation

Very nice, Olivia is the best intern we have ever had. She is not only well-organized and polite, but also performs any tasks assigned to her the best way possible. The hardest working intern, it was a pleasure to have her.

5. Participant's opinion about his/her personal & professional development

I started my work at the flamenco Theatre and I moved to the euroMind office. I prepared Europasses for groups, I completed briefcases with materials for trainees, I stamped documents, I entered trainee's data into the system, I copied guides for trips. I worked in an international team of young people from Spain, England, Italy, Romania and Poland. I had great time there, the time flew quickly because I had to do a lot of things.

3. Tutor's final note

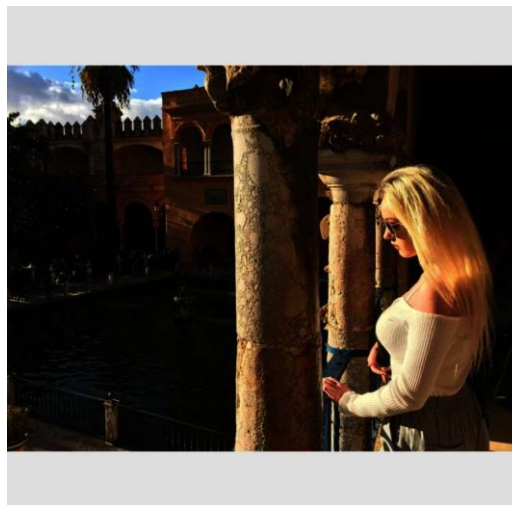

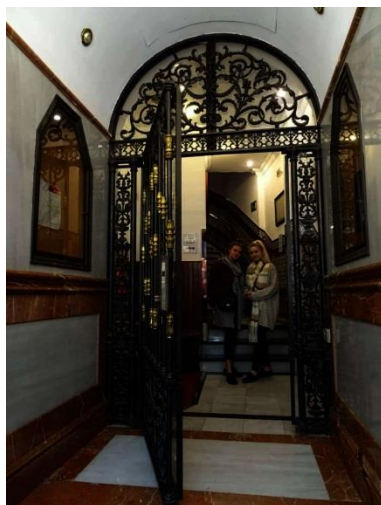

6 (Excellent)

4. Tutor's final evaluation

Patryk was very useful in the daily tasks. Polite and very positive person. I recommend him for any task.

5. Participant's opinion about his/her personal & professional development

The company I was working at was specializing in renting flats to tourist in Sevilla in eight different buildings. My tasks were: checking in the guests who were renting a flat, organizing documents in the office, paying bills for the bank. I was also translating some documents into Polish language. In the office there were 3 people working and they were always ready to help me. We were talking in English, but I also tried to speak in Spanish. There was a really nice atmosphere and I truly enjoyed this experience.

Host Organization: Padilla Libros

Tutor's name: Maria Padilla Berdejo

1. Description of the host organization

In 1969, the Padilla family opened their library in the center of Seville under the name of Librería Cenital. Faced with the difficulty of getting unpublished themes in Spain (because that era was characterized by prohibitionism), the Librería Cenital became a distributor (Padilla Libros-Publicaciones para Andalucía) and thus could create ways to get unpublished themes and editions of Spain to the bookshops of western Andalusia. Padilla Libros was the first library in the Andalusian capital to incorporate computers to advise to its clients and it got very close to the university world, visiting departments and opening library accounts through monthly payments. Ten years after its foundation, the company began its career as a publisher with the intention of publishing books of their friends and other authors who were considered interesting.

2. Main responsibilities & tasks carried out during the work placement

- Handling invoices, receipts, and payments
- Receiving deliveries and stock management
- Taking care of the order of the bookshop: unpack books and organize them in the warehouse stationary, replacing, placing and sorting products in the shop, organizing the showcase
- Creating and modifying documents using Microsoft Office
- Preparing, scanning and placing documents in electronic and paper archiving systems
- Classifying books (date order, alphabetic etc.) and creating bibliographic records

3. Tutor's final note

6 (Excellent)

4. Tutor's final evaluation

Very obedient and disciplined, always ready to learn and has a lot of empathy.

5. Participant's opinion about his/her personal & professional development

I worked at Padilla Libro, a family-owned company that deals with low-cost printing of textbooks and books. They also run a second-hand bookshop. I had the bookbinders work: stitching books, laying newspapers under the press, packing ready-made books for domestic and foreign shipments (even to Poland), putting books in a computer database. I felt very good at work, there was always a family atmosphere and nice music in the background so I really enjoyed this working experience.

Host Organization: Achef Areas S.L.

Tutor's name: Esther Hidalgo Sanchez - Ricardo Jimenéz - Alfredo Barrios

1. Description of the host organization

Achef considers itself a different and special company formed by a large team of professionals specializing in different sectors. The company was founded more than 20 years ago and thanks to all these years working in the branding, graphic design, printing and labelling sectors, it can be considered one of the best professionals in the province of Seville. The main characteristic of Achef is the creativity. They mix ideas, the first step is to know the client's idea, then analyze the situation and their objectives and in this way, they can start the project. They create products appropriate to the client expectations respecting the deadlines.

2. Main responsibilities & tasks carried out during the work placement

- Printing all materials received by customers (by mail or on the flash drive)
- Binding documents and distributing printed materials
- Saving and archiving documentation
- Developing administrative tasks related to customer service and use of office equipment (make photocopies, scan, etc.)
- Supporting sale process and sending
- Preparing materials and equipment, laminating, vacuum-packing, using a guillotine paper cutter

3. Tutor's final note

6 (Excellent)

4. Tutor's final evaluation

Very serious and responsible about her work. We are really happy!

5. Participant's opinion about his/her personal & professional development

The job I got to do was very interesting because we were doing things that we have done in school but just in theory. Every day we did different things, for example we laminated folders, did the t-shirts overprints, packed the boxes that were about to be sent, packed the final products in foil, or did the MENU for restaurants and for McDonalds. All of these tasks were closely intertwined with our profession, even though we were thinking that we would work with computers. However, this whole experience and participation in the advertising process were really helpful and will come in hand for my future job.

4. Tutor's final evaluation

Even though his level of Spanish was lower, overall he was a very good worker.

5. Participant's opinion about his/her personal & professional development

The company I worked at is responsible for hosting servers for many other companies, it also works as a service and computer shop. During my internship I was repairing many computer devices, portable devices, sometimes we got to go to other companies with our tutor to manage, modernize and repair servers. We learnt how to work with many server programs that we didn't know before. We get to know the rules and how to configure servers right. It was the perfect workplace for me and I am really grateful for this opportunity!

PROJECT MANAGEMENT

1. Mobility Project Preparation & Induction

Before the arrival of your trainees in Spain, euroMind provided them with the pre-arrival guide, including useful information, local transport & social life, emergency numbers.

euroMind has also arranged Skype meeting with the participants in order to get to know them and to interview them.

After the Skype interview, euroMind created a Facebook group to which all the selected participants were invited, together with their Teachers. This way euroMind Coordinator had constant contact with the target group already before their arrival in Spain.

Once the Skype interviews were delivered, euroMind upon a thorough analysis of the participants' studies and profile provided each one of them with an adequate work placement.

euroMind took responsibility for preparing Learning Agreements individually for each participant and made sure that all the parties involved signed all the necessary documents.

On the first day after the arrival, euroMind organized the welcome session during which the participants got to know the euroMind team, were reminded about the programme agenda, accommodation rules and dissemination strategy options.

Later on, the participants were taken for a walk around the neighborhood to get to know the area and find out where banks, mail box, workplace, supermarkets, bus station are.

2. Monitoring & Mentoring

In order to make sure that the objectives of the Learning Agreement were going to be achieved and that the participants would be fully integrated in the companies' work culture, the monitoring was delivered by all of the parties involved in the project.

euroMind assigned a Mentor for the group of participant who was responsible for the introduction of the participants to the host organisation(s). During the work placement/training the Mentor delivered monitoring visits to the work placements in order to revise the tasks of the trainees, their progress as well learn from the first hand the level of satisfaction of both the participants and the host companies/ training centre tutor.

The mentor in cooperation with companies Tutors carried out the evaluations of the trainees in the middle and at the end of the trainings.

After obtaining the results of the half-way through evaluation, the Mentor met the participants to give them the results of this evaluation. The least favourable results were discussed with the participants in private so that both the Mentor and the trainees had the comfort of sharing the information and exchanging the opinions and finding solutions to some problematic issues.

Host organisations assigned a member of its staff as a tutor. The tutors from the host companies were responsible for helping, informing and guiding and supervising the work done by the participants. The tutors had regular meetings with the participants in order to assess their presence in the company as well as to discuss the tasks and responsibilities according to the needs of the company and the participants.

euroMind at the end of the programme during the goodbye session handed out evaluation sheets to the participants so that they could assess their stay in Spain, work placements, as well as the work of the euroMind. euroMind was also available to the participants 24/7 in case of emergency.

3. Communication

EuroMind takes good care of successful communication between companies and trainees. Each evaluation of work is aimed at improving the quality of cooperation. Each party is thoroughly checked and assessed and the necessary improvements are introduced. Moreover, euroMind mediates in this supervisor-trainee collaboration by translating and solving language-connected complicated matters.

4. Dissemination strategy

euroMind took active part in the process of preparing and dissemination results of the project together with the sending organisation and participants.

While the trainees were in Spain, euroMind involved them in a number of activities the aim of which was to make students monitor and collect all the information related to the progress of their work placements and stay in Spain. The materials produced by the participant would be then used as tools for disseminating results by the school in their country and by the partner in Spain.

The participants could work in groups or individually. On the first day they needed to decide on the form or forms of recording their professional experiences.

As a rule the whole group needed to create a Facebook fun page as it is an effective and quick means of accessing large numbers of people. What is more, it is a form that appeals to young people as they can share their experiences instantly and receive instant feedback, too. The fan page is always linked to the euroMind's Facebook fan page. The sending organisation was also asked to do the same thing. This way the material produced by the trainees reached bigger audiences and was more effectively disseminated.

Apart from the Facebook fan page, the trainees were encouraged to prepare a PowerPoint presentation in English which they would be able to use to disseminate the results of the project back home (conferences, meetings with other students, parents, etc.).

euroMind also disseminates the project at a local level. It organises language and cultural exchanges between the international trainees and students from local vocational colleges. During those meetings both Spanish and International students are involved in a number of activities the aim of which is to get to know each other, share experiences related to work experiences and in general their stay in Spain. The students also exchange information about their countries and cultures.

5. Certification

To validate the acquired skills, the trainees, at the end of their stay, received complete proof of their participation in the project by means of several methods of recognition:

- Training Certificate
- Europass Mobility Certificate
- ECVET if applicable
- Spanish Course Certificate if applicable

CULTURAL & LINGUISTIC PREPARATION

1. Spanish course: teaching method & participants' outcomes

The group was given very intensive Spanish lessons with our Spanish Teacher. euroMind's teaching methods were very effective as they made learning fun through playing games and creating an enjoyable atmosphere in the class. The Spanish classes can be described by 2 words: dynamic and practical! We used an interactive method of teaching based on learning by practicing. This means that grammar was covered as much as possible by using practical situations. Therefore, speaking and actively using the language is crucial and central in all our activities delivered. After intensive and hard learning the students had a written an exam. All of the participants passed with very good results!

2. Cultural activities, Andalusian cities & places visited during the programme

Seville Tour: Seville is the artistic, cultural, and financial capital of Andalusia region in the southern Spain. The city is a historical masterpiece full of monuments, gardens and flamenco festivals. The city reflects the harmony between different Christian, Jewish and Muslim cultures and religions. As Seville is the capital and the largest city of the autonomous community of Andalusia, it is easy to get lost here, however thanks to the tour organised by euroMind's team, the trainees can admire the city safely and in a pleasant atmosphere. The euroMind coordinator helps our trainees understand the city from a historical and artistic point of view, but also gives them some shopping and eating tips. The group is showed the most attractive places where they can go and grab something to eat, drink, have fun or just relax and hang out.

Malaga: Malaga is not only the centre of the night life, shopping, cafés and beach chilling, but is also a perfect place for enthusiasts of a history, art and architecture. The city is one of the oldest one in the world and is wealth of magnificent monuments that will intrigue many enthusiasts of art and history. Participants began to explore the city from the Gibralfaro and Alcazaba Palace. They also saw an old Roman Theatre, the Cathedral, which was built through the XVI- XVIII centuries. Since Malaga is located on the Costa del Sol (Coast of the Sun) which is considered to be one of the most beautiful coasts in Spain, the group also had a chance to take a rest and relax at long and sandy Malagueta Beach by the Mediterranean Sea, where we finished our trip.

Cadiz: The oldest continuously inhabited city situated in southwestern Spain and a typical Andalusian city with a wealth of attractive views and well-preserved historical landmarks. Cadiz is

located by the ocean, and it is the place from where Christopher Columbus started the expedition aimed at discovering new lands. During the day-trip, the group visited the city centre enchants with old buildings and charming squares surrounded by countless cafés and bars, the Cathedral built in baroque style with neoclassical parts where the tomb of one of the greatest Spanish composers-Manuela de Falla is located, the oldest Fish Market in Spain, the Tavira Watchtower with a camera obscura (the darkened chamber/room), the city's defence walls or the Plaza de España where the first Spanish democratic constitution was signed. At the end of the trip, students could enjoy the rest of the day at the charming Caleta Beach surrounded by two castles.

SUMMARY OF THE PROJECT

euroMind team did their best in order to deliver the best professional and cultural experience to the trainees of the project being always ready to help, give advice and solve any problems or doubts.

The trainees were fully satisfied with their work placements. They gained much needed professional experience abroad which is highly appreciated and sometimes even specifically asked by today's employers.

We have no doubt that our trainees will use their new knowledge and experience at their current work in their home country or increase their chances at the labour market and dazzle their future potential employers.

Moreover, the trainees learnt the basics of the Spanish language were able to work in a multi-cultural environment and proved themselves with the ability to work individually as well as in a team.

euroMind team was extremely satisfied with the trainees' involvement in the project and personal interest in whatever they participated in.

This project was very successful and we hope to realize other successful projects with Zespół Szkół w Czerwionce-Leszczynach in the future.
